OVERVIEW

Katrina Manrique is a strategy consultant with a decade of experience helping public interest and capital-intensive organizations safely design, adopt, and manage complex technology systems. She has worked across six industries within the last three years including state and local government, public transit, power and utilities, port authorities, and higher education institutions.

She has contributed to first-of-their-kind solutions at significant scale, including a $1B statewide Salesforce implementation and California's first predictive analytics tool mapping climate impacts against social vulnerability. Prior work at the Los Angeles County Board of Supervisors, San Francisco Board of Supervisors, California Governor's Office of Land Use and Innovation, and California's Behavioral Health Services Oversight and Accountability Commission grounds her understanding of how public servants adopt and use technology.

- **System Requirements:** Defined the business requirements guiding configuration of a $1B software platform and assessed 70+ external systems for integration. Identified 65+ use cases for AI adoption in back-office operations.
- **Stakeholder Engagement and User Testing:** Conducted 300+ interviews and working sessions with public servants across 50+ California counties, including 100+ rural and tribal stakeholders, to inform system design.
- **Data and Analytics:** Built 20+ data dashboards for eight behavioral health clinics, increasing utilization and productivity by 50 percent. Established a data governance program at a state transportation agency to strengthen quality and reliability of workforce data tied to recruitment, retention, and hiring.
- **Process Improvement:** Identified 35 process improvements across four county departments, drawing on stakeholder interviews and benchmarking against 20 peer counties. Designed the first project management office within a state transportation agency, overseeing more than $60M in clean energy initiatives.

PROFESSIONAL EXPERIENCE

KPMG **October 2023-Present**

Strategy, Infrastructure and Capital Advisory | Associate *Los Angeles, CA*

- Delivered 15+ technology and operational engagements by identifying process bottlenecks, retraining teams, and setting up data-tracking metrics, to modernize legacy workflows across six industries including transit, power and utilities, health and human services, and higher education.

  System Design & Implementation
  - **$1B+ Salesforce System Implementation for $50B State Child Welfare Agency:** Defined 80+ system requirements across the child welfare lifecycle by testing user adoption and mapping how 50+ counties administer core processes, to standardize a statewide technology platform. Evaluated the functionality of 70+ internal and commercial systems by identifying functional overlap with the new statewide solution, improve adoption of statewide solution, capture additional functionality, and decommission legacy external systems.
  - **AI Use Case Development for Private 15K+ Student Online University:** Led the US firm's first AI strategy engagement in higher education by translating pain points across 4 user groups (e.g., students, faculty, advisors, and staff) into 20+ prioritized use cases covering the student lifecycle to drive university-wide AI adoption.

  Strategic Planning & Process Improvement
  - **Merger & Acquisition Feasibility Study for Private Universities**: Modeled 3 possible merger scenarios by evaluating qualitative and quantitative administrative, academic, IT, and real estate data across 2 private institutions, to measure the risks and benefits of a potential merger before formal due diligence.
  - **Operational & Organizational Assessment for $850B+ County Government:** Identified 35 service and customer experience improvements by interviewing 100+ stakeholders, benchmarking 20 peer counties, and designing a phased implementation plan, to upgrade delivery across 4 county departments.
  - **Project Management Office Stand-Up for $3B+ State Transportation Agency:** Designed a future-state operating model for $60M+ in clean energy initiatives by synthesizing feedback from 10+ stakeholders and benchmarking 3 state transportation agencies into 11 recommendations, to improve statewide performance and technology enablement.

  Data Analytics & Governance
  - **PowerBI Performance Tracking Dashboard for $120M+ County Outpatient Program:** Increased staff utilization by 50% across 8 behavioral health clinics by building 16 Power BI dashboards tracking 15 KPIs and coaching 10 managers overseeing 160 employees, and secure $8M in projected cost savings.
  - **Data Governance Stand-Up & PowerBI Dashboard Enhancements for $8B+ State Transportation Agency:** Built the agency's first data governance program by partnering with 10+ business owners to trace data lineage for 100+ critical data elements in Databricks, to resolve the root causes of workforce data quality issues. Deployed technical enhancements for 3 enterprise workforce dashboards by converting feedback from 60+ stakeholders into specific vendor requirements and creating training materials, to improve system usability and data adoption.

  Regulatory Compliance, Reporting, & Risk Management

KATRINA GACUSAN MANRIQUE, MPP, PMP

Los Angeles, CA | kgmanriq@gmail.com | linkedin.com/in/kgmanriq | kgmanriq.com

- **Programmatic Reporting for $200B+ Capital Expansion Program:** Published 7+ monthly progress reports for a major US transit expansion by coordinating and validating cost, schedule, risk, and milestone data across 20+ capital projects, to provide transparent project updates to the Board and the Federal Transit Administration.
- **Enterprise Governance Strategy & Operating Model Design for $3B Regional Transit Agency:** Developed the agency's first 5-year Agency Controls strategy and 2 operating frameworks to standardize agency governance and controls. Mapped decision rights across 15+ governing bodies and reconciled 20+ definitions against the business glossary, exposing gaps in authority and strengthen maturity of agency governance.

- **Expanded the US firm's higher education practice** by advancing 4 core service offerings to strengthen market presence, co-authoring 5 thought leadership pieces, and training 200+ professionals through 15+ knowledge sharing sessions, to scale business development and internal knowledge sharing.

Los Angeles County Board of Supervisors **January 2022-December 2022**
Supervisorial District 2 | David Bohnett Leadership Fellow *Los Angeles, CA*

- Accelerated hiring process for the nation's second-largest municipal health system by authoring a board motion that translated workforce data into clear policy directives and a mandatory tracking dashboard, to resolve a 17K+ health worker shortage.
- Designed a pilot program to address a 1,300% disease increase by translating public health research into clear policy options and building cross-agency alignment, to secure county board approval for the health interventions.

California Governor's Office of Land Use and Innovation **June 2021-December 2021**
Climate Equity and Resilience | Graduate Research Intern *Sacramento, CA*

- Co-developed California's first predictive analytics tool for climate hazards on vulnerable populations by standardizing data across 15 separate platforms and aligning 50 experts from 24 state agencies to align on common methodology and dashboard design.
- Increased adoption of the Climate Vulnerability Map across 100+ rural and tribal stakeholders by facilitating 2 statewide listening sessions and synthesizing 15+ hours of user input, to identify and remove key user experience barriers.

RESEARCH & PUBLICATIONS

GenAI in Public Institutions of Higher Education: Four Steps to Help Turn Disruption into Advantage

- Identified key barriers to GenAI adoption in public higher education, highlighting that only ~13% of universities have formal AI policies and outlining risks, governance principles, and operating model changes needed to support implementation, by synthesizing research and stakeholder insights into published thought leadership.

Community Engagement in AB 617: An Evaluation of Challenges, Successes, Lessons Learned, and Recommendations for the Future

- Co-authored a state-commissioned evaluation of California's Community Air Monitoring Program by analyzing 70+ interviews across 10 pilot communities to assess whether local resident input was successfully incorporated into policy design and execution. The report was widely cited by national think tanks including Brookings Institute and the Center for American Progress.

EDUCATION

University of Southern California **May 2023**
Master of Public Policy; Certificate in Business Analytics (GPA: 3.99) *Los Angeles, CA*
